Minutes for TC on Coding of Audio Signals meeting:

Called to order 4:40 PM Sunday 10/6/2002 by James D. Johnston.

Attendance list below.

1) Agenda Approved

2) Opening Remarks of Chairmen

3) Review of membership list, consideration of any others to invite
Co-chair Juergen Herre explained how to email to join the committee. (Mail hrr@iis.fhg.de after the convention to join.)

4) Review of activities for current convention
- Richard C. Heyser Memorial Lecture Series
- Workshops: Workshop on MPEG 4 audio extensions
- Workshop on Spatial Audio.

It was noted that the Call for Papers wasn't as well publicized as it has been in the past. Perhaps this should be an item of consideration for future Convention Committees and the AES Web Site. Perhaps each CFP should close after the preceding convention, rather than before.

5) Review of / proposals for activities at upcoming conventions, conferences, workshops etc.
- 114th AES convention

Advanced report on MPEG 4 extensions, effectively updated version of US workshop. Schuyler Quackenbush MAY be available to organize.

Workshop on future advanced spatial coding – Chris Faller will detail proposal and work on organization. This will be a "looking forward" version of the workshop in the USA.

- 115th AES convention NY

Workshop or Invited paper session on Echo Cancellation, Low Delay communications, and real-time and power efficient communications.

Workshop or Invited paper session on reduction to practice of coding algorithms especially in mobile or low-cost applications. – Ashish Aggarwal.

114th or 115th - Practical workshop on error control, mitigation and resilience in audio coding, with emphasis on listening and demonstrations of results. Markus Erne has graciously volunteered to attempt to organize this, for which we owe him a large thank you.

The coding TC suggests that Multichannel committee consider more analytic paper or workshop session on multichannel acquisition.

6) Status and further progression of TC educational CD ROM project
TC_SP will separately attempt to put out an educational CD. The 2nd edition of the CDrom is out. Marcus reports overcoming some mastering difficulties with the Coding CDrom.

7) Any Other Business

Nothing brought up.

8) Next Meeting
Amsterdam Convention, Dr. Herre presiding.

9) Closing of the Meeting

Adjourned 5:10 PM

Meeting Attendees:

James Johnston	Microsoft Corporation	jamesdj@microsoft.com
Tom McLaughlin	Library of Congress	tmcl@loc.gov
Jan P. Andrews	National Public Radio	jandrews@npr.org
Andreas Ehret	Coding Technologies	ehr@codingtechnologies.com
Ricardo A. Garcia	Chaoticom	rago@chaoticom.com
Grant Davidson	Dolby Labs	gad@dolby.com
Brett Crockett	Dolby Labs	bgc@dolby.com
Ashish Aggarwal	Portal Player, Inc	ashish.aggarwal@portalplayer.com
Dennis. Rwomwithn	Rebel Soul Sound	denrwom12@hotmail.com
Darnelle Melvin	Neurocore Productions	enigmatic@apexmail.com
Kunimaro Tanaka	Teikyo Heisei Univ.	tanaka-kunimato@sa.uno.ne.jp
Ralf Geiger	Fraunhofer AEMT	ggr@emt.iis.fhg.de
Stanley Kuo	Apple Computer	skuo@apple.com
Gerald Schuller	Fraunhofer IIS	schuller@emt.iis.fhg.de
Christof Faller	Agere Systems	cfaller@volny.cz
Mike Goodwin	Creative ATC	mgoodwin@atc.creative.com
Juergen Herre	Fraunhofer IIS	hrr@iis.fhg.de
Schuyler Quackenbush	Audio Research Labs	srq@audioresearchlabs.com
Karlheinz Brandenburg	Fraunhofer AEMT	bdg@emt.iis.fhg.de
Gary S. Brown	Tensilica	gsb@dolby.com
Markus Erne	Scopein Research	markus.erne@scopein.ch
