

Audio Engineering Society Educational Foundation Grant Application

Part 2 To be completed by each reference provider

This is a request to supply information regarding applicant

_____, who is submitting an application for an educational grant as described below.

Recommending faculty member: _____

Applications and signed recommendations are due at Foundation offices no later than May 15th. The form is interactive. Click in the answer space and type directly into the box which appears on electronic versions of the form.

The Audio Engineering Society Educational Foundation is dedicated to encouraging the entry of talented students into the profession of audio engineering and related fields.

Applications are accepted from students world-wide, and Foundation grants have provided a measure of financial support for studies at major universities in many countries.

All applicants are required to have met several criteria:

1. The successful completion of an undergraduate degree program (typically four years) at a recognized college or university.
2. A demonstrated commitment to audio engineering (or related field) as a career choice.
3. Acceptance or a pending application for graduate studies leading to a masters or higher degree, or an internationally recognized equivalent.

Recommendation for

I would rank this person in the upper _____ percent of the _____ (number of) students I have known with comparable career plans.

Signature _____

Institution _____

Printed Name _____

Email _____

Title, Department _____

Date _____

Address _____

Comments: (You may click in the space below and print in the box which appears, or you may attach a separate letter of recommendation to this form).
