

# AUDIO ENGINEERING SOCIETY

## CALL for PAPERS and ENGINEERING BRIEFS

### AES 136th Convention, 2014

#### Berlin, Germany

**Dates:** 2014 April 26–29

**Location:** Berlin, Germany

[www.aes.org/events/136](http://www.aes.org/events/136)

Authors may submit proposals in three categories:

1. Complete-manuscript peer-reviewed convention papers (submit at [www.aes.org/136th\\_authors](http://www.aes.org/136th_authors))
2. Abstract-precis-reviewed convention papers (submit at [www.aes.org/136th\\_authors](http://www.aes.org/136th_authors))
3. Synopsis-reviewed engineering briefs (submit at [www.aes.org/136th\\_ebriefs](http://www.aes.org/136th_ebriefs))

Category 1 and 2 proposals are to be submitted electronically to the AES 136th proposal submission site at [www.aes.org/136th\\_authors](http://www.aes.org/136th_authors) by **2013 December 9**.

For the complete-manuscript peer-reviewed convention papers (category 1), authors are asked to submit papers of 4–10 pages to the submission site. Papers exceeding 10 pages run the risk of rejection without review. These complete-manuscript papers will be reviewed by at least two experts in the field, and authors will be notified of acceptance by **2014 January 23**. Final manuscript with revisions requested by the reviewers have to be submitted before **2014 February 12**. If rejected as a convention paper (Cat. 1), the proposal may still be accepted for categories 2 or 3.

For abstract-precis-reviewed proposals (Cat. 2), a title, 60-to 120-word abstract, and 500- to 750-word précis of the proposed paper must be submitted by **2013 December 9**. Authors will be notified of acceptance by **2014 January 6**, and the authors must submit their final manuscripts (4 to 10 pages) before **2013 February 12**. If rejected from this category, the proposal may still be accepted as an engineering brief (Cat. 3).

Both complete-manuscript peer-reviewed papers (Cat. 1) and abstract-precis-reviewed papers (Cat. 2) will be available at the convention in a full set of PDFs of convention papers, and they will be added later to the AES E-Library ([www.aes.org/e-lib](http://www.aes.org/e-lib)). If a paper is longer than 10 pages, the author will be charged a fee of \$25 for every page over 10.

For engineering briefs (Cat. 3), authors must supply a short synopsis by **2014 February 12** to indicate their desire to present an engineering brief, followed later by an electronic manuscript. These manuscripts will be freely available in the AES E-Library to AES members, and there will be no paper copies. Topics for the engineering briefs can be very wide-ranging. Relaxed reviewing of submissions will consider mainly whether they are of interest to AES convention attendees and are not overly commercial. PDF manuscripts 1–5 pages in length following the prescribed template must be emailed to [136th\\_ebriefs@aes.org](mailto:136th_ebriefs@aes.org) by **2014 March 20**.

**Presenting authors (one per paper for all 3 categories) will be required to pay the full convention registration fee** (member and student member rates are lower than nonmember rates), and only then will the presenting author receive a free copy of the complete set of PDFs of the convention papers. Presenting authors who are student members and whose convention papers (Cat. 1 or 2) are accepted will be eligible for the Student Paper Award at the 136th; peer-reviewed Cat. 1 papers are given preference by the award judges. During the online submission process you will be asked to specify whether you prefer to present your paper in a lecture or poster session. Highly detailed papers are better suited to poster sessions, which permit greater interaction between author and audience. The convention committee reserves the right to reassign papers to any session, lecture or poster. The submission sites, [www.aes.org/136th\\_authors](http://www.aes.org/136th_authors) (Cat. 1 and 2) and [www.aes.org/136th\\_ebriefs](http://www.aes.org/136th_ebriefs) (Cat. 3), will be available by early November.

### PROPOSED TOPICS

<b>Perception</b> <b>Spatial audio</b> <b>Audio signal processing</b> <b>Semantic audio</b>	<b>Transducers</b> <b>Game audio</b> <b>Recording and production</b> <b>Applications in audio</b>	<b>Education</b> <b>Room acoustics</b> <b>Forensic audio</b> <b>Sonification</b>	<b>Audio computing</b> <b>Network audio</b> <b>Cinema sound</b>
--	--	---	---

Submit title/abstract/précis or full papers at [www.aes.org/136th\\_authors](http://www.aes.org/136th_authors). Submit eBriefs at [www.aes.org/136th\\_ebriefs](http://www.aes.org/136th_ebriefs).

#### SCHEDULE

Proposal (Cat. 1 and 2) deadline: **2013 December 9**  
 Acceptance (précis proposals, Cat. 2) emailed: **2014 January 6**  
 Acceptance (full papers, Cat. 1) emailed: **2014 January 23**  
 Final manuscript (Cat 1 and 2) deadline: **2014 February 12**  
 Engineering brief (Cat. 3) deadline: **2014 February 12**  
 Engineering brief (Cat. 3) 1–5 page PDF deadline: **2014 March 20**
