10/03/08 – Coding of Audio Signals

1:02 PM Called to order

Agenda Approved

Jürgen Herre moved to approve minutes. Approved by acclimation

Old business

SAOC workshop on Sunday,

Mail reflector: Suggestion from Jürgen Herre to mail reflector for active check-off. Will mail after convention, asking for positive check-off within 1 month. Mailing list is rather *extensive* at the minute.

New Business

Spatial Audio Committee – Workshop on Multi-channel/Spatial Audio? Perhaps involving coding, and interactions between coding and spatial audio. We will try to coordinate with SA committee, and may help in conference under construction.

Some discussion about direct and diffuse content, and possible concerns with coding.

Check into SAOC repeat at Munich. Oliver Hellmuth will look into it.

For New York – Tutorial on Speech and Audio coding - Jim Johnston will try to put it together.

Anibal Ferreira – "where is coding headed" – He will try to propose panel (workshop) for NY on this question.

Kavitha Velusamy: Interested in echo cancellation, suggested she join SP committee as well as coding committee?

Michael Lester: Suggested talk (workshop or tutorial) on filterbanks for coding. He will look into setting this up for NY.

Meeting adjourned 1:42

Annex: Attendees:

Name	Affiliation
Juergen Herre	Fraunhofer IIS
Jim Johnston	Neural Audio
Jonas Engdegård	Dolby
Lars Villemoes	Dolby
Heiko Purnhagen	Dolby
Oliver Hellmuth	Fraunhofer IIS
Thomas Sporer	Fraunhofer IDMT
Gerald Schuller	Fraunhofer IDMT
Leon van de Kerkhof	Philips
Miikka Vilermo	Nokia
Jon Noley	LSB Audio
Michael Lester	Shure
Anibal Ferreira	University of Porto
Katharina Velusamy	Cisco Systems
Bernd Edler	University of Hannover
Marina Bosi	Stanford University
Karlheinz Brandenburg	Fraunhofer IDMT
