TC-NAS Minutes
4-5p 4 October 2008
San Francisco

Attendees:

Kevin Gross
Umberto Zanghery
David A. Hoatson
Jeremie Weber
Stephen Turner
Steve Swearingen
Drew Kinney
Gene Goff
Nathan Brock
Michelle Daniels
Robby Gurdan
Richard Foss
Kevin Broce
Andrew Oswald
Thomas Sporer
Betsy Cohen

Meeting called to order by vice-chair Kevin Gross.

Discussion on updating emerging trends document.

Kevin Gross volunteers to send a write-up on the IEEE's AVB initiative to the TC-NAS
reflector for incorporation into an updated emerging trends document.

Kevin Gross gives a brief AVB overview.

Discussion of white paper progress.

Only a few in attendance have read the draft. Kevin volunteers to post the URL for
obtaining the draft to the TC-NAS reflector. White paper URL:
http://nas.cim.mcgill.ca/wp.pdf.

Nathan Brock and Michelle Daniels volunteer to review the GRID computing section and
suggest how to better integrate it with the rest of the paper.

Umberto Zanghieri presents technical details of the SC-02-02 X182 project. X182
proposes standardizing Powersoft's scheme for carrying 10/100 Ethernet and 2 AES
streams on CAT5 cable wired in a ring topology.

Discussion of network-related ideas for future conventions.

1/ Audio control protocols invited paper session or workshop. Richard Foss volunteers to chair a workshop at the 126th convention (Munich). Potential topics:
- X170
- CAN
- HiQnet
- IEC62379
- AVC
- Bonjour

2/ Repeat of 125th convention's AVB tutorial as a workshop for the 126th convention.

3/ A general workshop on networked audio covering technology covered in two separate networking workshops at the 125th.
