

# 138<sup>TH</sup>

## SOFITEL VICTORIA HOTEL WARSAW, POLAND

AUDIO ENGINEERING SOCIETY  
INTERNATIONAL CONVENTION

CONFERENCE: THURSDAY, MAY 7–10, 2015

EXHIBITION: THURSDAY, MAY 7 –9, 2015

Join the AES in Warsaw, Poland, at the Sofitel Victoria Hotel, May 7-10, 2015, as we gather for Europe's largest dedicated professional audio convention of the year.

This historically rich yet still growing market is Poland's center for television, film, broadcast and music recording and production, while Poland itself boasts hundreds of project and professional recording studios.

This first **Audio Engineering Society International Convention** to be held in Poland offers a unique opportunity to network with audio professionals from neighboring countries as well, including Czech Republic, Germany, Belarus, Lithuania, Ukraine, Slovakia, Russia, and more, each with their own national broadcast centers, music and media studios, live sound and other sectors of audio production.

**AES International Conventions** serve as the largest gathering of audio professionals and enthusiasts in the world, attracting delegates from over 100 countries for over 65 years. Workshops, tutorials, research papers and product exhibition areas provide attendees with a wealth of learning, networking and business opportunities throughout the event. Come be a part of AES as we present this year's exclusive program of audio technology and innovation.

The **Audio Engineering Society** will continue its push to develop new initiatives with increased awareness, a growing exhibition, and extra recent additions to the convention, including the hugely popular ***Project Studio Expo*** and new product technology forums.

Once again, the 138th Convention will celebrate all that is new and important in the field of audio. And remember, no matter where in the world you are...

***If It's About Audio, It's At AES!***

# EXHIBITOR PRICING
