- Question has been asked by Konstantinos
- Bozena gave some information on the work of TCs and the Technical Council in general

Workshops and Tutorials

Reports on events at past convention (New York)

Tutorial: Advances in Semantic Audio (organized by R. Stables; with Brecht de Man, J. Reiss, T. Wilmering)

Workshop: Semantic Audio Analysis (organized by G. Fazekas)

Events that are planned at the current convention (Paris)

We are not aware of any Workshops and Tutorials organized by our TC.

Future events

We are not aware of any Workshops and Tutorials.

Send email to the list to stimulate the organization of a workshop and/or tutorial.

International Conference on Semantic Audio

- Short status report given by Christian
- Bozena: please look for the best submissions (based on reviewers) and encourage the authors to submit a revised version to the JAES.

JAES Special Issue on Semantic Audio

- ~~The JAES received 38 submissions for the special issue, which is quite a high number of submissions~~
- Correction: The JAES received 28 submissions for the special issue
