

TC-NAS Minutes

1400-1500, Friday, 30 September 2016

141th AES Convention, Los Angeles

Los Angeles Convention Center, Room 405

Prepared by Nicolas Sturmel, 30 September 2016

0. Agenda review

Welcoming of new members

1. Agenda : adding a point on European convention network audio track

2. Secretary : Nicolas Sturmel

3. Meeting minutes : 140th, 139th

- 140 approved (no comments against)
- 139 approved (no comments against)

4. Word from Bob Lee on the Network Audio program : hard to put it up, lots of intermediaries (AVnu, MNA) instead of talking directly to presenters

5. Future network audio tracks (Berlin and New York)

Berlin co-chairs : Sascha Sporers, and Nadia Wallaszkovits —> Nicolas Sturmel will coordinate the Network Audio track for the Berlin convention

New York co-chairs : Jim Anderson ? other ? —> Bob Lee will coordinate the Network Audio track for the New York convention

Ideas for next conventions:

- more technical oriented workshop on how to build a networked audio device
 - need for an other « how to include AES67 in your product »
 - Audio network development 101 ?
 - Maybe someone at Analog Device or Cirrus Logic could make a tutorial on « how to use one's chip for AES67/AVB »
- Contact the OCA : « dessect the demo board and show how you can use it to build a control panel » (coordination with product design track)
- sessions about designing a network (use cases, test cases, success stories)
- the benefits in network audio ?
- A session with a « real audio network used as PA system » instead of the A/V system of the room, and real world "live" sessions « how to debug the system », « control »,
- Cloud based session ?
- Wireless session ?
- Discovery, control, transport : how the whole system fits together ?

6. TC-TB coordination: not addressed

7. Standards

Listing the meetings SC02-12 on saturday : discovery, AES67 development, standards group
(Standards Meeting room = 508a)

VSF TR-03, TR-04 : recomandations passed on the SMPTE, will be SMPTE standard 2110

8. Call to look for webpages (see agenda), and maybe update emerging trends report —> looking for participation and contribution on emerging trends
