

TC-AF 10/17/19 Agenda

- Roll Call
 - o Doug, Anibal, Marisa, Cole, Rob, Keith, Eddy, Gordon, CVW, Eric, Frank, Steven Becker
- ACM IH&MMSec Conference. Denver, CO June 22-24, 2020
- AES 146th update (Eddy B.)
 - o No meeting held (Eddy chaired, no one else present)
 - o No minutes
- Conferences
 - o 2019 Porto Wrap-up
 - Description (Anibal F.)
 - Check AES Sept issue for summary (thanks Rob)
 - CPC Presentation (Eddy B.)
 - Good reviews from AESHQ
 - o 2021 Proposal - Bozeman, MT
 - Proposed chair, Rob Maher
 - We are looking into holding the next meeting in the US in 2021 at [Montana State University-Bozeman](#). This site is very attractive for low cost accommodations and close proximity to the world-renowned [Yellowstone National Park](#).
 - [Bozeman Yellowstone International Airport - BZN](#)
 - Feasibility?
 - Jeff wants Training courses before/after
 - Gordon wants Market research
 - Feedback from Europeans (Gordon R.: not convinced, Annibal F.: would love to, love nature!, Eddy B: absolutely)
 - o Luca C.: It would be more difficult than usual honestly, because the combined flights are crazy expensive. In the end I would still try my best for coming, since the conference per se is valuable. But in general I would expect a lower attendance than usual from people living in Europe, since venues connected with direct flights are both less expensive and easier to each from here (I have the luck of being able to go to Frankfurt or Munich by train, but other attendees would need 3 planes in the best case).
 - o Anil A.: Thanks for this email The place looks absolutely fantastic, so it is certainly very tempting from a personal perspective. I would love to go to Yellowstone National Park. Having said that, to bring a group (say 2-3 people + Sponsorship might prove a bit expensive and a really long flight. I have a feeling the other europeans might feel that way too. As I said, I can be persuaded, but this wouldnt be our first choice.
 - Feedback from Americans
 - o Keith: NATIA sees bump up when location is a family destination (like Yellowstone)
 - Alternate: Denver, CO 2022
 - Three years rather than out typical 2 year cycle. AES is fine with that
- Convention workshop/tutorial/panel proposals for May or Oct 2020?

- Audio forensics overview – Rob to chair a panel/workshop in Fall 2020, Eddy same for Spring 2020
- Discussion of Emerging Trends
 - AI: speaker comparison, and enhancement. Blind source separation. Gunshots? Shotspotter, deep voice
- Discussion of audio from VHS and voice comparison (Marisa D.)
