Japanese Papers on Auditory and Brain Research
(Hypersonic Effect and High Resolution Audio)

Tsutomu Oohashi, et.al.

Shoji Ito, Toshihide Harada et.al. - Hiroshima, Japan

Hiroshi Nittono, et.al – Osaka, Japan

Others - A few representatives of a much broader literature mapping brain and somatic responses to audio signals at all frequencies and correlating them with centers of emotional response. References from these and the above provide an entry into this literature.

Auditory Brainstem Response

Auditory Evoked Magnetic Fields
